

# The Simons Center for Systems Biology Seminar Series - Spring 2010

Institute for Advanced Study

## Seminar Schedule

- March 3**  
**4:00 pm**  
**Nils Baas**  
**NTNU and Institute for Advanced Study**  
*New Structures in the Natural Sciences*  
**Bloomberg Hall Physics Library**
- March 5**  
**4:00 pm**  
**C. David Allis**  
**The Rockefeller University**  
*Beyond the Double Helix: Reading and Writing the Histone Code*  
**Bloomberg Hall Physics Library**
- March 17**  
**4:00 pm**  
**Elaine Ostrander**  
**National Institutes of Health**  
*Hunting for Genes and Tracking Loci: Complex Trait Analysis in the Domestic Dog*  
**Bloomberg Hall Physics Library**
- March 18**  
**4:30 pm**  
**Przemyslaw Prusinkiewicz**  
**University of Calgary**  
*Images of Life: Exploring Plant Development with Visual Models and Simulations*  
**Bloomberg Lecture Hall**
- March 24**  
**4:00 pm**  
**Scott Selleck**  
**The Pennsylvania State University**  
*Genomic Instability and Copy Number Burden in Autism Spectrum Disorder*  
**Bloomberg Hall 113**
- March 26**  
**4:00 pm**  
**Barry Coller**  
**The Rockefeller University**  
*Integrating Mass Screening and Structure Based Design for Novel Antithrombotic Drug Development*  
**Bloomberg Hall Physics Library**
- June 4**  
**4:00 pm**  
**Jeffrey Friedman**  
**The Rockefeller University**  
*Leptin and the Genetic Basis of Obesity: Dissecting Leptin's Loop*  
**Bloomberg Hall Physics Library**
