

Publications

John N. Bahcall

I. BOOKS AUTHORED

1. *The Redshift Controversy*, G. B. Field, ed.; H. C. Arp and J. N. Bahcall, auths., Addison-Wesley (1973). Redshifts as Distance Indicators, J. N. Bahcall, pp. 61–121.
2. *Neutrino Astrophysics* (Cambridge: Cambridge University Press) (1989 April).

II. BOOKS EDITED

1. *The Galaxy and the Solar System*, R. Smoluchowski, J. N. Bahcall, and M. S. Matthews, eds., University of Arizona Press (1986).
2. *Dark Matter in the Universe*, J. N. Bahcall, T. Piran, and S. Weinberg, eds., World Scientific Publications (1988).
3. *The Decade of Discovery in Astronomy and Astrophysics*, J. N. Bahcall, Chairman, ed., National Academy Press (1991).
4. *Solar Neutrinos, The First Thirty Years*, John N. Bahcall, Raymond Davis, Jr., Peter Parker, Alexei Smirnov, and Roger Ulrich, eds., first paperback edition (Westview Press, 2002).
5. *Unsolved Problems in Astrophysics*, John N. Bahcall and Jeremiah P. Ostriker, eds., Princeton University Press (1997).
6. *Dark Matter in the Universe*, Second Edition, John Bahcall, Tsvi Piran, and Steven Weinberg, eds., World Scientific (2004).
7. *Neutrino Physics, Its Impact on Particle Physics, Astrophysics and Cosmology; Proceedings of the Carolina Symposium on Neutrino Physics*, J. Bahcall, W. Haxton, K. Kubodera, and C. Poole, eds., World Scientific (2001).

III. TECHNICAL PAPERS

1. The Mass of the Muon's Neutrino (J. N. Bahcall and R. B. Curtis), *Il Nuovo Cimento* **21**, pp. 422–429 (1961 August).
2. Theory of Bound-State Beta Decay, *Phys. Rev.* **124**, pp. 495–499 (1961 October 15).
3. Virial Theorem for Many-Electron Dirac Systems, *Phys. Rev.* **124**, No. 3, pp. 923–924 (1961 November 1).
4. Relativistic Z-Dependent Theory of Many-Electron Atoms (D. Layzer and J. N. Bahcall), *Ann. Phys.* **17**, No. 2, pp. 177–204 (1962 February).

5. Beta Decay in Stellar Interiors, *Phys. Rev.* **126**, No. 3, pp. 1143–1149 (1962 May 1).
6. Electron Capture and Nuclear Matrix Elements of Be^7 , *Phys. Rev.* **128**, No. 3, pp. 1297–1301 (1962 November 1).
7. The Exclusion Principle and Photobeta Reactions in Nucleogenesis, *ApJ* **136**, No. 2, pp. 445–452 (1962 September).
8. Effect of Exchange on L to K Capture Ratios, *Phys. Rev. Lett.* **9**, No. 12, pp. 500–502 (1962 December 15).
9. Overlap and Exchange Effects in Beta Decay, *Phys. Rev.* **129**, No. 6, pp. 2683–2694 (1963 March 15).
10. Effect of Exchange on M/L Electron Capture Ratios, *Phys. Rev.* **131**, No. 4, pp. 1756–1759 (1963 August 15).
11. Exchange and Overlap Effects in Electron Capture and in Related Phenomena, *Phys. Rev.* **132**, No. 1, pp. 362–367 (1963 October 1).
12. Solar Neutrino Flux (J. N. Bahcall, W. A. Fowler, I. Iben, and R. L. Sears), *ApJ* **137**, No. 1, pp. 344–346 (1963 January).
13. Exclusion Principle Inhibition of Beta Decay in Stellar Interiors (V. L. Peterson and J. N. Bahcall), *ApJ* **138**, No. 2, pp. 437–451 (1963 February 28).
14. Electron Capture in Stellar Interiors, *ApJ* **139**, No. 1, pp. 318–338 (1964 January 1).
15. Termination of the Proton-Proton Chain in Stellar Interiors (P. D. Parker, J. N. Bahcall, and W. A. Fowler) *ApJ* **139**, No. 2, pp. 602–621 (1964 February 15).
16. Terminating the Proton-Proton Chain at High Densities (J. N. Bahcall and R. A. Wolf), *ApJ* **139**, No. 2, pp. 622–636 (1964 February 15).
17. Solar Neutrino Cross Sections and Nuclear Beta Decay, *Phys. Rev.* **135**, No. 1B, pp. B137–B146 (1964 July 13).
18. Neutrino Astronomy and Intermediate Bosons (J. N. Bahcall and S. C. Frautschi), *Phys. Rev.* **135**, No. 3B, pp. B788–B791 (1964 August 10).
19. Neutrino Opacity. I. Neutrino-Lepton Scattering, *Phys. Rev.* **136**, No. 4B, pp. B1164–B1171 (1964 November 23).
20. Neutrino Opacity. II. Neutrino-Nucleon Interactions (J. N. Bahcall and S. C. Frautschi), *Phys. Rev.* **136**, No. 5B, pp. B1547–B1552, (1964 December 7).
21. Importance of a Study of the Decay of Ca^{37} to the Problem of Detecting Solar Neutrinos (J. N. Bahcall and C. A. Barnes), *Phys. Lett.* **12**, No. 1, pp. 48–49 (1964 September 1).
22. Solar Neutrinos. I. Theoretical, *Phys. Rev. Lett.* **12**, No. 11, pp. 300–302 (1964 March 16).
23. Nuclear Matrix Elements for the Mirror Decays of B^{12} and N^{12} (J. Eichler, T. A. Tombrello, and J. N. Bahcall), *Phys. Lett.* **13**, No. 2, pp. 146–148 (1964 November 15).
24. Neutrino-Spectroscopy of the Solar Interior, *Phys. Lett.* **13**, No. 4, pp. 332–333 (1964 December 15).

25. Neutron Stars (J. N. Bahcall and R. A. Wolf), *Phys. Rev. Lett.* **14**, No. 10, pp. 343–346 (1965 March 8).
26. Exchange and Overlap Effects in Electron Capture Ratios: Physical Basis and Experimental Tests, *Nucl. Phys.* **71**, No. 2, pp. 267–272, (1965 April 2).
27. Neutron Stars. I. Properties at Absolute Zero Temperature (J. N. Bahcall and R. A. Wolf), *Phys. Rev.* **140**, No. 5B, pp. B1445–B1451 (1965 December 6).
28. Neutron Stars. II. Neutrino-Cooling and Observability (J. N. Bahcall and R. A. Wolf), *Phys. Rev.* **140**, No. 5B, pp. B1452–B1466, (1965 December 6).
29. An Observational Test of Theories of Neutron-Star Cooling (J. N. Bahcall and R. A. Wolf), *ApJ* **142**, No. 3, pp. 1254–1256 (1965 October 1).
30. On the Interaction of Radiation from Distant Sources with the Intervening Medium (J. N. Bahcall and E. E. Salpeter), *ApJ Lett.* **142**, No. 4, pp. 1677–1681 (1965 November 15).
31. Observational Neutrino Astronomy, *Science* **147**, No. 3654, pp. 115–120 (1965 January 8).
32. Observational Neutrino Astronomy: A ν -Review - Proceedings of the 2nd Texas Symposium on Relativistic Astrophysics. Austin, Texas, Dec. 1964 (Gordon and Breach, N.Y. 1969 - *Quasars and High-Energy Astronomy*, ed. K. N. Douglas, I. Robinson, A. Schild, E. L. Schucking, J. A. Wheeler, and N. J. Woolf).
33. Non-Resonant Nuclear Reactions at Stellar Temperatures, *ApJ* **143**, No. 1, pp. 259–261 (1966 January).
34. Absorption Lines in the Spectra of Distant Sources (J. N. Bahcall and E. E. Salpeter), *ApJ Lett.* **144**, No. 2, pp. 847–852 (1966 May).
35. Phase-Space Integrals for Beta Decay and Nuclear Matrix Elements, *Nucl. Phys.* **75**, pp. 10–16 (1966).
36. Solar Neutrinos, *Phys. Rev. Lett.* **17**, No. 7, pp. 398–401, (1966 August 15).
37. On the Absorption Spectrum of 1116+12 (J. N. Bahcall, B. A. Peterson, and M. Schmidt), *ApJ Lett.* **145**, No. 1, pp. 369–372, (1966 July).
38. On Some Predicted and Observed Features of Quasi-Stellar Sources, *ApJ* **145**, No. 3, pp. 684–696 (1966 September).
39. An Interpretation of the Absorption Spectrum of 3C 191, *ApJ Lett.* **146**, No. 2, pp. 615–618 (1966 November).
40. On the Problem of Detecting Solar Neutrinos (J. N. Bahcall and R. Davis, Jr.), *Stellar Evolution* (ed. R. F. Stein and A. G. W. Cameron, Plenum Press, N.Y., 1966), pp. 241–243.
41. Does the Fine-Structure Constant Vary with Cosmic Time? (J. N. Bahcall and M. Schmidt), *Phys. Rev. Lett.* **19**, No. 22, pp. 1294–1295 (1967 November 27).
42. Predicted Emission Spectra of Quasi-Stellar Sources in the Far Ultraviolet (J. N. Bahcall and W. L. W. Sargent), *ApJ* **148**, pp. L65–L68 (1967 May).
43. Phenomenological Limits on the Absorbing Regions of Quasi-Stellar Sources, *ApJ* **149**, pp. L7–L9 (1967 July).

44. An Analysis of the Absorption Spectrum of 3C 191 (J. N. Bahcall, W. L. W. Sargent, and M. Schmidt), *ApJ* **149**, pp. L11–L15, (1967 July).
45. Dependence of the ^8B Solar Neutrino Flux on Heavy Element Composition (J. N. Bahcall, M. Cooper, and P. Demarque), *ApJ* **150**, pp. 723–724, (1967 November).
46. Dependence of the ^8B Solar Neutrino Flux on the Rate of the Reaction $^3\text{He} (^3\text{He}, 2p) ^4\text{He}$ (G. Shaviv, J. N. Bahcall, and W. A. Fowler), *ApJ* **150**, pp. 725–728 (1967 November).
47. The Carbon to Silicon Ratio in 3C 191 (J. N. Bahcall, B. Z. Kozlowski, W. L. W. Sargent, and M. Schmidt), *Pub. A. S. P.* **79**, No. 470, pp. 425–427 (1967 October).
48. Brans-Dicke Cosmology and the Solar Neutrino Flux (G. Shaviv and J. N. Bahcall), *Pub. A. S. P.* **79**, pp. 438 (1967).
49. Solar Neutrinos, Proc. 2nd Int. Conference on High-Energy Physics and Nuclear Structure (1967), pp. 232–255, ed. G. Alexander (North Holland, Amsterdam).
50. Neutrino Absorption by Deuterium (S. D. Ellis and J. N. Bahcall), *Nucl. Phys.* **A114**, pp. 636–640 (1968).
51. Electron Scattering and Tests of Cosmological Models (J. N. Bahcall and R. M. May), *ApJ* **152**, pp. 37–42 (1968 April).
52. Fine-Structure Transitions (J. N. Bahcall and R. A. Wolf), *ApJ* **152**, pp. 701–729 (1968 June).
53. The Rate of the Proton-Proton Reaction (J. N. Bahcall and R. M. May), *ApJ* **152**, pp. L17–L20 (1968 April).
54. Solar Models and Neutrino Fluxes (J. N. Bahcall and G. Shaviv), *ApJ* **153**, pp. 113–125 (1968 July).
55. A Systematic Method for Identifying Absorption Lines as Applied to PKS 0237–23, *ApJ* **153**, pp. 679–688 (1968 August).
56. The Absorption-Line Spectrum of the Quasi-Stellar Radio Source PKS 0237–23 (J. N. Bahcall, J. L. Greenstein, and W. L. W. Sargent), *ApJ* **153**, pp. 689–698 (1968 August).
57. The Effect of the Brans-Dicke Cosmology on Solar Evolution and Neutrino Fluxes (G. Shaviv and J. N. Bahcall), *ApJ* **155**, pp. 135–143, (1969 January).
58. Solar Neutrinos and Low-Energy Nuclear Cross Sections (J. N. Bahcall, N. A. Bahcall, W. A. Fowler, and G. Shaviv), *Phys. Lett.* **26B**, No. 6, pp. 359–361 (1968 February 19).
59. Present Status of the Theoretical Predictions for the ^{37}Cl Solar-Neutrino Experiment (J. N. Bahcall, N. A. Bahcall, and G. Shaviv), *Phys. Rev. Lett.* **20**, No. 21, pp. 1209–1212 (1968 May 20).
60. Mixing in the Sun and Neutrino Fluxes (J. N. Bahcall, N. A. Bahcall, and R. K. Ulrich), *Astrophys. Lett.* **2**, pp. 91–95 (1968).
61. The Rate of the Proton-Proton Reaction and Some Related Reactions (J. N. Bahcall and R. M. May), *ApJ* **155**, pp. 501–510, (1969 February).
62. The ^7Be Electron-Capture Rate (J. N. Bahcall and C. P. Moeller), *ApJ* **155**, pp. 511–514 (1969 February).

63. Fine-Structure Transitions and the Background Microwave Radiation (V. Petrosian, J. N. Bahcall, and E. E. Salpeter), *ApJ* **155**, pp. L57–L64 (1969 February).
64. Some Models of the Emission-Line Region of 3C 273 (J. N. Bahcall and B-Z Kozlovsky), *ApJ* **155**, pp. 1077–1097 (1969 March).
65. On the Absorption Spectrum of Ton 1530 (J. N. Bahcall, P. S. Osmer, and M. Schmidt), *ApJ* **156**, pp. L1–L5 (1969 April).
66. Statistical Tests for the Origin of Absorption Lines Observed in Quasi-Stellar Sources (J. N. Bahcall and P. J. E. Peebles), *ApJ* **156**, pp. L7–L10 (1969 April).
67. Absorption Lines Produced By Galactic Halos (J. N. Bahcall and L. Spitzer), *ApJ* **156**, pp. L63–L65 (1969 May).
68. Sensitivity of the Solar Neutrino Fluxes (J. N. Bahcall, N. A. Bahcall, and R. K. Ulrich), *ApJ* **156**, pp. 559–568 (1969 May).
69. On the Possibility of Detecting Redshifted 21-cm Absorption Lines in the Spectra of Quasi-Stellar Sources (J. N. Bahcall and R. D. Ekers), *ApJ* **157**, pp. 1055–1064 (1969 September).
70. Are Some Quasi-Stellar Objects Associated with Clusters of Galaxies? (J. N. Bahcall, M. Schmidt, and J. E. Gunn), *ApJ* **157**, pp. L77–L79 (1969 August).
71. Quasi-Stellar Objects in the Direction of Clusters of Galaxies, *Ap. J.* **157**, pp. L151–L152 (1969 September).
72. Observational Neutrino Astronomy: A ν -Review, in *Quasars and High-Energy Astronomy*, ed. K. N. Douglas *et al.* (New York: Gordon and Breach 1969), p. 321.
73. Some Models for the Emission-Line Region of 3C 48 (J. N. Bahcall and B-Z. Kozlovsky), *ApJ* **158**, pp. 529–533 (1969 November).
74. On the Masses of Quasi-Stellar Sources (J. N. Bahcall and E. E. Salpeter), *ApJ* **158**, pp. L15–L17 (1969 October).
75. What Next with Solar Neutrinos?, *Phys. Rev. Lett.* **23**, No. 5, pp. 251–254 (1969 August 4).
76. Quasi-Stellar Objects in the Direction of Rich Clusters of Galaxies, *ApJ* **158**, pp. L87–L89 (1969 November).
77. Theoretical Aspects of Solar Neutrino Experiments - Proceedings International Conference on Neutrino Physics and Astrophysics (Moscow 1969) **2**, 133, F. I. Acad. Sci. USSR.
78. Lepton Non-Conservation and Solar Neutrinos (J. N. Bahcall and S. C. Frautschi), *Phys. Lett.* **29B**, No. 10, pp. 623–625 (1969 August).
79. Upper Limits on the Masses of Quasi-Stellar Sources (J. N. Bahcall and E. E. Salpeter), *ApJ* **159**, pp. L135–L136 (1970 February).
80. Solar-Neutrino Fluxes with Recent Corrections to Opacity (J. N. Bahcall and R. K. Ulrich), *ApJ* **160**, pp. L57–L60 (1970 April).

81. On the Rich Absorption Spectra of Three Quasi-Stellar Objects (J. N. Bahcall and U. Feldman), *ApJ* **161**, pp. 389–398 (1970 August).
82. Photon Splitting in a Strong Magnetic Field (S. L. Adler, J. N. Bahcall, C. G. Callan, Jr., and M. N. Rosenbluth), *Phys. Rev. Lett.* **25**, No. 15, pp. 1061–1065 (1970 October 12).
83. Extragalactic Pulsars (J. N. Bahcall, M. J. Rees, and E. E. Salpeter), *ApJ* **162**, pp. 737–742 (1970 December).
84. On the Bowen Resonance Fluorescence Lines in Quasi-Stellar Objects (J. N. Bahcall and B-Z. Kozlovsky), *ApJ* **162**, pp. 789–790 (1970 December).
85. On the Galaxies in the Direction of Ton 256 and B 264 (J. N. Bahcall and N. A. Bahcall), *Pub. A. S. P.* **82**, No. 487, pp. 721–729 (1970 June).
86. Galaxies in the Direction of QSO's with Small Redshifts (N. Bahcall and J. N. Bahcall), *Pub. A. S. P.* **82**, No. 490, pp. 1276–1292 (1970 December).
87. Multiple Absorption Redshifts in Quasars, *Comments on Astrophysics and Space Science* **2**, pp. 221 (1970).
88. Some Inferences from Spectrophotometry of Quasi-Stellar Sources (J. N. Bahcall and J. B. Oke), *ApJ* **163**, pp. 235–238 (1971 January 15).
89. Quark Fusion in Quasi-Stellar Objects? (J. N. Bahcall, C. G. Callan, Jr., and R. Dashen), *ApJ* **163**, pp. 239–247 (1971 January 15).
90. Ultradense Matter (S. Frautschi, J. N. Bahcall, G. Steigman, and J. C. Wheeler), *Comments on Astrophysics and Space Physics* **3**, No. 4, pp. 121–126 (1971).
91. Solar Neutrinos, *Particles and Fields* (Proc. of Rochester Meeting of APS/DPF), ed. A. C. Mellissinos and P. F. Slattery (New York: AIP, 1971), pp. 243–246.
92. Relative Correlation of Large and Small-Redshift Quasi-Stellar Objects with Clusters of Galaxies (J. N. Bahcall, N. Bahcall, and G. R. Burbidge), *ApJ* **166**, pp. L77–L80 (1971 June 15).
93. Some Unsolved Problems in Astrophysics, *A.J.* **76**, No. 4, pp. 283–290 (1971 May).
94. Upper Limit on Neutrino Energy Associated with Weber Pulses (J. N. Bahcall, and R. Davis, Jr.), *Phys. Rev. Lett.* **26**, No. 11, pp. 662–663 (1971 March 15).
95. The Ionization Structure of a Nebula Photoionized by a Flat Spectrum (J. N. Bahcall, N. Bahcall, and B-Z Kozlovsky), *Astron. and Astroph.* **13**, pp. 1–6 (1971).
96. The Hadron Barrier in Cosmology and Gravitational Collapse (J. N. Bahcall and S. Frautschi), *ApJ* **170**, pp. L81–L84 (1971 December 1).
97. On the Absorption-Line Spectrum of 4C 05.34 (J. N. Bahcall and S. Goldsmith), *ApJ* **170**, pp. 17–24 (1971 November 15).
98. Solar Neutrinos. III. Composition and Magnetic-Field Effects and Related Inferences (J. N. Bahcall and R. K. Ulrich), *ApJ* **170**, pp. 593–603 (1971 December 15).

99. On the Time Dependence of Emission-Line Strengths from a Photoionized Nebula (J. N. Bahcall, B-Z. Kozlovsky, and E. E. Salpeter), *ApJ* **171**, pp. 467–482 (1972 February 1).
100. Are Neutrinos Stable Particles? (J. N. Bahcall, N. Cabibbo, and A. Yahil), *Phys. Rev. Lett.* **28**, No. 5, pp. 316–318 (1972 January 31).
101. Models for the Cosmic Evolution of Radio Galaxies and Quasars, *Ap. J.* **172**, pp. 265–282 (1972 March 1).
102. On Identifying New Kinds of Astronomical Objects (J. N. Bahcall and A. Yahil), *Nature Phys. Sci.* **238**, No. 84, pp. 92–93 (1972 August 7).
103. Solar Neutrinos (J. N. Bahcall and R. L. Sears), *Ann. Rev. Astron. and Astroph.* **10**, pp. 25–44 (1972).
104. Are Galaxies Formed by Material Flowing out of Singularities? (J. N. Bahcall and P. C. Joss), *Comments on Astrophys. and Space Phys.* **IV**, pp. 95–99 (1972).
- 105.] Quarks as a Thermometer for Cosmologies (S. Frautschi, G. Steigmann, and J. N. Bahcall), *ApJ* **175**, pp. 307–322 (1972 July 15).
106. Are Quasars Associated with Bright Galaxies? (J. N. Bahcall, C. F. McKee, and N. Bahcall), *Astroph. Lett.* **10**, pp. 147–152 (1972).
107. The Solar Neutrino Problem, *Comments in Nuclear and Particle Phys.* **Vol. V**, No. 2, pp. 59–64 (1972) (see also No. 127).
108. The Estimation of Masses of Individual Galaxies in Clusters of Galaxies (R. A. Wolf and J. N. Bahcall), *ApJ* **176**, No. 3, pp. 559–580, (1972 September 15).
109. On the Luminosity Functions of Giant Stars in Globular Clusters (J. N. Bahcall and A. Yahil), *ApJ* **177**, No. 3, pp. 647–651 (1972 November 1).
110. Some Observational Distinctions Among Models of Pulsing X-ray Binaries (J. Arons and J. N. Bahcall), *Astroph. Lett.* **11**, pp. 191–194 (1972).
111. The Period and Light Curve of HZ Herculis (J. N. Bahcall and N. Bahcall), *ApJ* **178**, No. 1, pp. L1–L4 (1972 November 15).
112. Solar Neutrinos: Theory, *Neutrino 1972*, **1**, 296, ed. by A. Frenkel and G. Mark (OMDK-Technoinform, Budapest, Hungary, June 1972, Europhysics Conf. Balatonfured).
113. An Analysis of the Absorption Spectrum of PHL 957 (J. N. Bahcall and P. C. Joss), *ApJ* **179**, No. 2, pp. 381–389 (1973 January 15).
114. The Hubble Diagram for the Brightest Quasars (J. N. Bahcall and R. Hills), *ApJ* **179**, No. 3, pp. 699–703 (1973 February 1).
115. Optical and Near-Infrared Observations of the Nearby Spiral Galaxy Maffei 2 (H. Spinrad, J. N. Bahcall, E. E. Becklin, J. E. Gunn, J. Kristian, G. Neugebauer, W. L. W. Sargent, and H. Smith), *ApJ* **180**, pp. 351–358 (1973 March 1).
116. The Hubble Diagram for the Brightest Quasars (R. Hills and J. N. Bahcall), *Annals of the New York Academy of Sciences* **224**, pp. 58–64 (1973 December 14).

117. A Search for High-Ionization Redshift Systems in the Absorption Spectra of Five Quasars (J. N. Bahcall, P. C. Joss, and J. G. Cohen), *ApJ* **184**, pp. 57–63 (1973 August 15).
118. Solar Neutrinos. IV. Effect of Radiative Opacities on Calculated Neutrino Fluxes (J. N. Bahcall, W. F. Heubner, N. H. McGee, A. L. Merts, and R. K. Ulrich), *ApJ* **184**, pp. 1–4 (1973 August 15).
119. On the Temperature of the Microwave Background Radiation at a Large Redshift (J. N. Bahcall, P. C. Joss, and R. Lynds), *ApJ* **182**, pp. L95–L98 (1973 June 15).
120. Nonspherical Thermal Instabilities (M. N. Rosenbluth and J. N. Bahcall), *Ap. J* **184**, pp. 9–16 (1973 August 15).
121. Nuclear Fusion in Accreting Neutron Stars (M. N. Rosenbluth, M. Ruderman, F. J. Dyson, J. N. Bahcall, J. Shaham, and J. Ostriker), *ApJ* **184**, pp. 907–910 (1973 September 15).
122. Model for X-ray Sources Based on Magnetic Field Twisting (J. N. Bahcall, M. N. Rosenbluth, and R. M. Kulsrud), *Nature* **243**, No. 124, pp. 27–28 (1973 May 14).
123. Radio stars and X-ray Sources (J. N. Bahcall and E. M. Kellogg), *Nature* **244**, No. 139, pp. 135–136 (1973 August 27).
124. The Solar Neutrino Problem, *Nuclear Instruments and Methods* **110**, pp. 381–384 (1973) (see also No. 109).
125. A Model for the Light Curve of HZ Herculis (P. C. Joss, Y. Avni, and J. N. Bahcall), *ApJ* **186**, pp. 767–773 (1973 December 1).
126. Observations of QSOs in the Direction of Clusters of Galaxies (N. Bahcall, J. N. Bahcall, and M. Schmidt), *ApJ* **183**, pp. 777–782 (1973 August 1).
